# GOUDA *new from Swiss Valley Farms*

## About Our Gouda

Manufactured at both our Luana, IA and Shullsburg, WI facilities, our Gouda is a semi-soft cheese with a creamy flavor and rich golden color. Young Gouda tends to be very mild and buttery, but it develops a much fuller flavor with age. Small eyes may be present.

<b>Natural</b>	<b>No Artificial Colors, Flavors or Preservatives</b>	<b>Made With Milk From Cows Not Treated With r-BST*</b>	<b>Mild &amp; Buttery</b>	<b>Grass-Fed Variety Available</b>
----------------	---	---	---------------------------	------------------------------------

## Applications

Gouda is great by itself or sliced on ham, turkey, chicken and roast beef sandwiches. Its meltable qualities also make it ideal for use in soups and sauces, in a grilled cheese sandwich or in a casserole. Gouda is great for snacking or as a dessert cheese and can be paired with a variety of berries and nuts.

### Product Description

Gouda Sandwich Cut

Gouda Slices

Gouda Chunks

### Pack/Size

2/7#

9/1.5# (Grass-fed variety only)

12/7oz (Grass-fed variety only)

## Why Swiss Valley Farms?

### Farmer-Owned Heritage

As a farmer-owned cooperative, we have full control of our milk supply. You can trust that we will maintain consistency in the quality cheeses we produce.

### Industry Veteran

With over 50 years of experience in the dairy industry, we've developed a reputation as a quality, reliable supplier of cheese. Additionally, we employ some of the best cheesemakers in the industry and it is their expertise that allows us to continually meet the high standards of quality our customers have come to expect.

### Award-Winning Cheeses

We are a recognized quality leader, and you don't have to take our word for it -- Swiss Valley Farms cheeses have been recognized at state, national and international contests for years. We are constantly updating our ever-growing library of awards. You can view them at <http://www.swissvalley.com/business/awards.cfm>.

\*The FDA has determined that no significant difference has been shown between milk from rBST-treated cows and non-rBST-treated cows.
